proximity of your property to the works, you are within an area which may experience some noise disturbance overnight. We are aware of the issues created by night working and will endeavour to keep noise levels reduced whenever possible.

Whilst there is an allowance within the time periods shown overleaf for delays, there may be times when we have to postpone works at very short notice; based on the latest weather forecasts, this can occur just prior to works commencing. We will always look to provide up to date information wherever we can, but sometimes these last minute decisions can be difficult to relay to the travelling public in a timely manner. **When we can, any significant changes to the scheduled dates will be made clear on the yellow sign boards located at the works limits.**

In order to help us to complete the work as quickly as possible, please ensure that no vehicles are parked near the area of works during working hours. **Please be aware any vehicles left parked on the road that prevent the works taking place, face the risk of being removed.**

For your safety and that of our workforce, we are unable to guarantee vehicular access to and from your property during working hours. Should you need to make an essential journey once the road is closed, please contact a member of the workforce in advance and they will be able to advise if they can accommodate your request. Pedestrian access will be available at all times.
